SUMMARY

Passionate engineering graduate with a strong focus on software development, characterized by relentless determination, meticulous attention to detail, and exceptional organizational skills. Demonstrates confidence in abilities and unwavering commitment to continuous learning, personal growth, and excellence in all endeavors. Proficient in designing, developing, testing, modifying, configuring, and maintaining applications, utilizing cutting-edge technologies to meet and exceed customer requirements.

TECHNICAL SKILLS

Programming languages:

C, C++, DSA[problem-solving],python

Web Technologies:

HTML, CSS, JavaScript, jQuery, React.Js,REST API

Data Management:

SQL, DBMS, EXCEL

Platforms:

Windows,Linux,Git,VS-Code,Microsoft-Office

CERTIFICATES

- Front-End Course[Meta] |January 2024
- Microsoft Azure Cloud Certification | Microsoft |January 2024
- Code-a-thon | Programming Path Shala | January 20, 2023
- Data Structures and Algorithms in C++ | Fifth Force | May 20, 2022
- DBMS [SPRING BOARD INFOSYS] June 2024

POWER SKILLS

- Curious
- Perceptive
- Enthusiastic
- Excellent communication skill's
- Good-Natured
- Problem-solving

EXTRA CURRICULAR ACTIVITIES

- One India Program | LPU April 2022 Student of the Year | Coding Ninjas LPU| April 2022
- Student Intern in NGO Divya Disha (works for child line and women welfare) Hyderabad | June 2021 to July 2021

TRAINING

C++ with DSA | Hitbullseye

- Advanced proficiency in C++ programming language, with a keen understanding of object-oriented principles, templates, and standard library features.
- Demonstrated expertise in implementing data structures and algorithms in C++, optimizing performance and memory usage for efficient software solutions.

React.JS Training | Programming Pathshala

- Developed proficiency in essential concepts of React.js, including conditional rendering, react-routing, redux, react lazy, and custom hooks, experience working collaboratively as part of a team on a group project
- Explored the use of modern tools in React.js development, utilizing Git and GitHub for version control, Semantic UI for streamlined UI design.

PROJECTS

Real time chat application using php,sql (Oct 2023)

- I creatively Designed and made a real time chat application ,which works best for chatting withn different themes using PHP,Html,Css,Sql

Snake and Ladder game using React js (June 2023)

- Built a Multiplayer game using React JS to play the Snake and Ladder game.
- Developed features for the website and created the best Features to enhance customer experience.
- Created HTML, CSS, JavaScript, and JSP pages for user interaction.

Placement Portal using HTML, CSS, and JS (Nov 2022)

- Built a placement portal using HTML, CSS, JavaScript
- It is designed into two halves, the staff portal and the student portal with many exciting features. Using Bootstrap made it more user-interactive.

WORK EXPERIENCE

Web Developer Intern | Codosoft | Remote [Aug'23-Sep'23]

During my one-month internship at Codost as a web developer, I independently contributed to three real-time projects. This hands-on experience allowed me to apply web development technologies, design user-friendly interfaces, and develop responsive web applications that met project requirements. It was a valuable opportunity that strengthened my technical skills and provided practical insight into web development processes and best practices.

Full Stack Developer at Code Clause [Oct'23-Nov'23]

spearheading the development of a real-time chat application using Laravel PHP. Successfully implemented features enhancing user interaction, scalability, and overall system performance, .demonstrating proficiency in both front-end and back-end technologies

EDUCATION

B.Tech. in Computer Science

[Apr '20 –Present]

Lovely Professional University| Phagwara, India
CGPA 7.75
